

ProScience

For Authors

Publishing in Pro Science journals

Publishing in ProScience journals starts with finding the right journal for you. You can browse various journal titles available on ProScience Web site.

STEP 1 – Select the right journal for your Manuscript / Article

Pro Science publishes around 5 journals in Applied BioScience, Food Technology, Engineering, Chemistry and Pharmacy. Each journal has a separate homepage at ProScience.com. The home page contains aim and scope, subject areas covered by the journal and other relevant information.

Subjects:

[Pharmaceutical Sciences](#)

[Chemistry](#)

[Food Technology](#)

[Applied Biosciences](#)

[Engineering and Technology](#)

STEP 2 – Prepare your Manuscript / Article

Guidelines, style and formatting instructions can be found on each journal home page. Download the sample copy and start using it as a template for preparing the manuscript.

STEP 3 – Article Submission process

Each journal home is supported with submit paper option. Go to the specific journal homepage and click on the Submit Article button and it will guide you to gain access to the article submission system. Submit a cover letter and the manuscript in Microsoft Word format

Ensure that you register as an author before proceeding to the electronic submission system.

On submission of the manuscript, you will receive an acknowledgement to the enrolled email id. If you don't receive an acknowledgement email, kindly mail to us at: help@proscience-journals.com

STEP 4 – Check Status of your manuscript / article

After submission of the manuscript, you will receive an Article ID in our first acknowledgement mail. You can track your manuscript online subsequently using the login details provided at the time of registration.

Pro-science is committed to the timely review process. Each manuscript submitted to ProScience – Journals, is reviewed by our international peer-review system. On an average, the editor gives his first decision within 15-20 days from the date of submission.

Manuscript Review Process

The manuscript undergoes through various stages of Editorial Process. After submission, a preliminary evaluation is carried to check for the basic criteria. Any deviation to the guidelines will be sent back to the author for corrections at this stage. Articles suitable for review will be handled by the Chief Editor and assign the paper to a relevant peer review team. The detailed description of the editorial flow of the paper starting with author submission to the Editor's decision can be found in the reviewer guidelines on each journal home page.
